The consultations shall take place in the Joint Committee if a Party so requests within 20 days from the receipt of the notification.

ARTICLE 2.14

1. The Parties shall endeavour to refrain from initiating anti-dumping procedures under Article VI of the GATT 1994 and the Agreement on Implementation of Article VI of the General Agreement on Tariffs and Trade 1994 (hereinafter referred to as the “Anti-dumping Agreement”) against each other.
2. When a Party receives a properly documented application and before initiating an investigation under the Anti-dumping Agreement, the Party shall notify in writing the other Party whose products are allegedly being dumped and allow for a 60 day period for consultations with a view to finding a mutually acceptable solution. The

consultations shall take place in the Joint Committee if a Party so requests within 20 days from the receipt of the notification.

3. If an anti-dumping measure is applied by a Party, the measure shall be terminated no later than five years from its imposition.

4. A Party shall not initiate an anti-dumping investigation with regard to the same product from the same Party within one year from a determination which resulted in the non-application or revocation of anti-dumping measures or from the termination of a measure pursuant to paragraph 3.

5. If a Party decides to impose an anti-dumping duty, the Party shall apply the “lesser duty” rule by determining a duty which is less than the dumping margin, if such lesser duty would be adequate to remove the injury to the domestic industry.

6. Five years after the entry into force of this Agreement, the Joint Committee shall review whether there is a need to maintain the possibility to take anti-dumping measures between them. If the Parties decide after the first review to maintain this possibility, biennial reviews shall thereafter be conducted by the Joint Committee.

ARTICLE 2.15

Global Safeguard Measures

Each Party retains its rights and obligations under Article XIX of the GATT 1994 and the WTO Agreement on Safeguards. In taking measures under these WTO provisions, a Party shall, consistent with WTO law and jurisprudence and in accordance with its domestic legislation, exclude imports of an originating product from one or several Parties if such imports do not in and of themselves cause or threaten to cause serious injury.

ARTICLE 2.16

Transitional Safeguard Measures

1. Where, as a result of the reduction or elimination of a customs duty under this Agreement, any product originating in a Party is being imported into the territory of another Party in such increased quantities, in absolute terms or relative to domestic production, and under such conditions as to constitute a substantial cause of serious injury or threat thereof to the domestic industry of like or directly competitive products in the territory of the importing Party, the importing Party may take transitional safeguard measures to the minimum extent necessary to remedy or prevent the injury, subject to paragraphs 2 to 9.

2. Transitional safeguard measures shall only be taken upon clear evidence that increased imports have caused or are threatening to cause serious injury pursuant to an investigation in accordance with the procedures laid down in the WTO Agreement on Safeguards.

3. If the conditions set out in paragraph 1 are met, the importing Party may take measures consisting in increasing the rate of customs duty for the product to a level not to exceed the lesser of:

- (a) the MFN rate of duty applied at the time the transitional safeguard measure is taken; or
- (b) the MFN rate of duty applied on the day immediately preceding the date of the entry into force of this Agreement.

4. Transitional safeguard measures shall be taken for a period not exceeding one year. In very exceptional circumstances, the importing Party may extend the measures up to a total maximum period of three years. The exporting Parties that are affected by the extended transitional safeguard measure shall be offered compensation in the form of substantially equivalent trade liberalisation. No transitional safeguard measures shall be applied to the import of a product, which has previously been subject to such a measure.

5. The Party intending to take or extend a transitional safeguard measure under this Article shall immediately, and in any case before taking or extending a measure, notify the other Parties. The notification shall contain all pertinent information, including evidence of serious injury or threat thereof caused by increased imports, a precise description of the product concerned, and the proposed measure, as well as the proposed date of introduction, expected duration and timetable for the progressive removal of the measure. In case of extension of the measure pursuant to paragraph 4, the notification shall also specify the intended compensation.

6. The Joint Committee shall, within 30 days from the receipt of the notification, examine the information provided under paragraph 5 in order to facilitate a mutually acceptable solution. In the absence of such solution, the importing Party may adopt or extend a transitional safeguard measure pursuant to paragraph 3 to remedy the problem. In the absence of mutually agreed compensation pursuant to paragraph 4, the Party against whose product the transitional safeguard measure is taken may take compensatory action. The transitional safeguard measure and the compensatory action shall be immediately notified to the other Parties. In the selection of the transitional safeguard measure and the compensatory action, priority must be given to the action or measure which least disturbs the functioning of this Agreement. The Party taking compensatory action shall apply the action only for the minimum period necessary to achieve the substantially equivalent trade effects and in any event, only during the extension of the transitional safeguard measure.

7. In critical circumstances, where delay would cause damage which would be difficult to repair, a Party may take a provisional transitional safeguard measure pursuant to a preliminary determination that there is clear evidence that increased imports constitute a substantial cause of serious injury, or threat thereof, to the domestic industry. The Party intending to take such a measure shall immediately notify the other Parties thereof. Within 30 days from the receipt of the notification, the procedures set out in this Article shall be initiated.

8. Any provisional transitional safeguard measure shall be terminated within 200 days at the latest. The period of application of any such provisional transitional safeguard measure shall be counted as part of the duration, and any extension thereof, of the transitional safeguard measure, set out in paragraphs 3 and 4 respectively. Any tariff increases shall be promptly refunded if the investigation described in paragraph 2 does not result in a finding that the conditions of paragraph 1 are met.

9. A transitional safeguard measure may be applied no later than five years from the entry into force of this Agreement.

ARTICLE 2.17

General Exceptions

Article XX of the GATT 1994 shall apply and is hereby incorporated into and made part of this Agreement, *mutatis mutandis*.

Domestic Regulation

1. Each Party shall ensure that all measures of general application affecting trade in services are administered in a reasonable, objective and impartial manner.

2. Each Party shall maintain or institute, as soon as practicable, judicial, arbitral or administrative tribunals or procedures which provide, at the request of an affected service supplier of another Party, for the prompt review of, and where justified, appropriate remedies for, administrative decisions affecting trade in services. Where such procedures are not independent of the agency entrusted with the administrative decision concerned, the Party shall ensure that the procedures in fact provide for an objective and impartial review.

3. Where authorisation is required by a Party for the supply of a service, the competent authorities of that Party shall, within a reasonable period of time after the

submission of an application is considered complete under that Party's domestic laws and regulations, inform the applicant of the decision concerning the application. At the request of the applicant, the competent authorities of that Party shall provide, without undue delay, information concerning the status of the application.

4. Each Party shall ensure that measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures, in all services sectors, are based on objective and transparent criteria, such as competence and the ability to supply the service.

5. With a view to ensuring that measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures do not constitute unnecessary barriers to trade in services, the Joint Committee shall take a decision aiming at incorporating into this Agreement any disciplines developed in the WTO in accordance with paragraph 4 of Article VI of the GATS. The Parties may also, jointly or bilaterally, decide to develop further disciplines.

6. (a) In sectors in which a Party has undertaken specific commitments, pending the entry into force of a decision incorporating WTO disciplines for these sectors pursuant to paragraph 5, and, if agreed between Parties, disciplines developed jointly or bilaterally under this Agreement pursuant to paragraph 5, the Party shall not apply qualification requirements and procedures, technical standards and licensing requirements and procedures that nullify or impair such specific commitments in a manner which is:

(i) more burdensome than necessary to ensure the quality of the service;
or

(ii) in the case of licensing procedures, in itself a restriction on the supply of the service.

(b) In determining whether a Party is in conformity with the obligation under subparagraph (a), account shall be taken of international standards of relevant international organisations applied by that Party. For the purposes of this Chapter, "relevant international organisations" means international bodies whose membership is open to the relevant bodies of all Parties.

Such recognition may be based upon an agreement or arrangement with that other Party, or otherwise be accorded autonomously.

2. Where a Party recognises, by agreement or arrangement, the education or experience obtained, requirements met, or licences or certifications granted, in the territory of a non-party, that Party shall afford another Party adequate opportunity to negotiate its accession to such an agreement or arrangement, whether existing or future, or to negotiate a comparable agreement or arrangement with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for another Party to demonstrate that the education or experience obtained, requirements met, or licences or certifications granted, in the territory of that other Party should also be recognised.

3. Any such agreement or arrangement or autonomous recognition shall be in conformity with the relevant provisions of the WTO Agreement, in particular paragraph 3 of Article VII of the GATS.

This Chapter shall not prevent a Party from applying measures to regulate the entry of natural persons of another Party into, or their temporary stay in, its territory, including those measures necessary to protect the integrity of, and to ensure the orderly movement of natural persons across its borders, provided that such measures are not applied in such a manner as to nullify or impair the benefits accruing to any Party under the terms of a specific commitment.⁷

4. A procuring entity shall not prescribe any technical specifications that require or refer to a particular trademark or trade name, patent, copyright, design or type, specific origin, producer or supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that, in such cases, the entity includes words such as “or equivalent” in the tender documentation.

¹⁰ Georgia may use national technical regulations which may differ from the international standards, until September of 2022.

5. A procuring entity shall not seek or accept, in a manner that would have the effect of precluding competition, advice that may be used in the preparation or adoption of any technical specification for a specific procurement from a person that may have a commercial interest in the procurement. This provision does not prevent preliminary market consultations in accordance with this Article.

6. For greater certainty, a Party, including its procuring entities, may, in accordance with this Article, prepare, adopt or apply technical specifications to promote the conservation of natural resources or protect the environment.

ARTICLE 8.16

Modifications of the Tender Documentation and Technical Specifications

Where, prior to the award of a contract, a procuring entity modifies the criteria or requirements set out in a notice or tender documentation provided to participating suppliers, or amends or reissues a notice or tender documentation, it shall transmit in writing all such modifications, amended or re-issued notice or tender documentation:

- (a) to all suppliers that are participating at the time of the modification, amendment or re-issuance, if known, and in all other cases, in the same manner as the original information was made available; and
- (b) in adequate time to allow such suppliers to modify and re-submit amended tenders, as appropriate.

ARTICLE 8.17

Time-Periods

A procuring entity shall, consistent with its own reasonable needs, provide suppliers sufficient time to prepare and submit requests for participation and responsive tenders, taking into account in particular the nature and complexity of the procurement. Each Party shall apply time-periods according to the conditions specified in Appendix 8 to Annex XVI. Such time-periods, including any extension of the time-periods, shall be the same for all interested or participating suppliers.

ARTICLE 8.18

Limited Tendering

1. Provided that it does not use this provision for the purpose of avoiding competition among suppliers or in a manner that discriminates against suppliers of another Party or protects domestic suppliers, a procuring entity may use limited tendering and may choose not to apply Articles 8.10, 8.11, 8.12, 8.13, 8.14, 8.17, 8.19, 8.20, 8.21 and 8.22 only under the following circumstances:

- (a) where:
 - (i) no tenders were submitted, or no supplier requested participation;
 - (ii) no tenders that conform to the essential requirements of the tender documentation were submitted;
 - (iii) no suppliers satisfied the conditions for participation; or
 - (iv) the tenders submitted have been collusive;provided that the requirements of the tender documentation are not substantially modified;

 - (i) the requirement is for a work of art;
 - (ii) the protection of patents, copyrights or other exclusive rights; or
 - (iii) due to an absence of competition on the market for technical reasons;
- (c) for additional deliveries by the original supplier of goods and services that were not included in the initial procurement where a change of supplier for such additional goods and services:
 - (i) cannot be made for economic or technical reasons such as requirements of interchangeability or interoperability with existing equipment, software, services or installations procured under the initial procurement; and
 - (ii) would cause significant inconvenience or substantial duplication of costs to the procuring entity;
- (d) in so far as strictly necessary where, for reasons of extreme urgency brought about by events unforeseeable by the procuring entity, the goods or services could not be obtained in time using an open or selective tendering procedure;
- (e) for goods purchased on a commodity market;
- (f) where a procuring entity procures a prototype or a first good or service that is developed at its request in the course of, and for, a particular contract for research, experiment, study or original development. Original development of a first good or service may include limited production or supply in order to incorporate the results of field testing and to demonstrate that the good or service is suitable for production or supply in quantity to acceptable quality standards, but does not include quantity production or supply to

establish commercial viability or to recover research and development costs;

- (g) for purchases made under exceptionally advantageous conditions that only arise in the very short term in the case of unusual disposals such as those arising from liquidation, receivership, or bankruptcy, but not for routine purchases from regular suppliers; or
- (h) where a contract is awarded to a winner of a design contest provided that:
 - (i) the contest has been organised in a manner that is consistent with the principles of this Chapter, in particular relating to the publication of a notice of intended procurement; and
 - (ii) the participants are judged by an independent jury or design contest committee with a view to a design contract being awarded to a winner.

2. A procuring entity shall prepare a report in writing on each contract awarded under paragraph 1. The report shall include the name of the procuring entity, the value and kind of goods or services procured, and a statement indicating the circumstances and conditions described in paragraph 1 that justified the use of limited tendering.

ARTICLE 8.19

Electronic Auctions

1. Where a procuring entity intends to conduct a covered procurement using an electronic auction, the entity shall provide each participant, before commencing the electronic auction, with:
- (a) the automatic evaluation method including the mathematical formula, that is based on the evaluation criteria set out in the tender documentation and that will be used in the automatic ranking or re-ranking during the auction;

 - (c) any other relevant information relating to the conduct of the auction.

ARTICLE 8.20

Negotiations

1. A Party may provide for its procuring entities to conduct negotiations:

- (a) where the entity has indicated such intent in the notice of intended procurement pursuant to Article 8.10; or
 - (b) where it appears from the evaluation that no one tender is obviously the most advantageous in terms of the specific evaluation criteria set out in the notice or tender documentation.
2. A procuring entity shall:
- (a) ensure that any elimination of suppliers participating in negotiations is carried out in accordance with the evaluation criteria set out in the notice or tender documentation; and
 - (b) where negotiations are concluded, provide a common deadline for the remaining participating suppliers to submit any new or revised tenders.

ARTICLE 8.21

Treatment of Tenders

1. A procuring entity shall receive, open and treat all tenders under procedures that guarantee the fairness and impartiality of the procurement process and the confidentiality of tenders.
2. A procuring entity shall not penalise any supplier whose tender is received after the time specified for receiving tenders if the delay is due solely to mishandling on the part of the procuring entity.
3. Where a procuring entity provides suppliers with an opportunity to correct unintentional errors of form between the opening of tenders and the awarding of the contract, the entity shall provide the same opportunity to all participating suppliers.

ARTICLE 8.22

Awarding of Contracts

1. To be considered for award, a tender shall be submitted in writing and shall, at the time of opening, comply with the essential requirements set out in the notices and tender documentation and be from a supplier that satisfies the conditions for participation.
2. Unless a procuring entity determines that it is not in the public interest to award a contract, the entity shall award the contract to the supplier that it has determined to be capable of fulfilling the terms of the contract and that, based solely on the evaluation criteria specified in the notices and tender documentation, has submitted:
 - (a) the most advantageous tender; or

(b) where price is the sole criterion, the lowest price.

3. Where a procuring entity receives a tender with a price that is abnormally lower than the prices in other tenders submitted, it may verify with the supplier that it satisfies the conditions for participation and is capable of fulfilling the terms of the contract.

4. If a procuring entity uses option clauses, cancels a procurement or modifies awarded contracts, it shall not do so in a manner that circumvents the obligations of this Chapter.

ARTICLE 8.23

Transparency of Procurement Information

1. A procuring entity shall promptly inform participating suppliers of its contract award decisions and, on request, shall do so in writing. Subject to Article 8.24, a procuring entity shall, on request, provide an unsuccessful supplier with an explanation of the reasons why the entity did not select its tender and the relative advantages of the successful supplier's tender.

2. No later than 72 days from the award of each contract, a procuring entity shall publish in a paper or electronic medium listed in Appendix 7 of Annex XVI, a notice that includes at least the following information about the contract:

3. Where the entity publishes the notice only in an electronic medium, the information shall remain readily accessible for a reasonable period of time

4. Each procuring entity shall, for a period of at least three years from the date it awards a contract, maintain the documentation and reports of tendering procedures and contract awards relating to covered procurement, including the reports provided for in Article 8.18, and the data that ensure the appropriate traceability of the conduct of covered procurement by electronic means.

ARTICLE 8.24

Disclosure of Information

1. On request of another Party, a Party shall provide promptly any information necessary to determine whether a procurement was conducted fairly, impartially and in accordance with this Chapter, including information on the characteristics and relative advantages of the successful tender.
2. In cases where the release of such information would prejudice competition in future tenders, the Party that receives the information shall not disclose it to any supplier, except after consulting with, and obtaining the agreement of, the Party that provided the information.
3. Notwithstanding any other provision of this Chapter, a Party, including its procuring entities, shall not provide information to a particular supplier that might prejudice fair competition between suppliers.
4. Nothing in this Chapter shall be construed to require a Party, including its procuring entities, authorities, and review bodies, to release information under this Chapter, which is confidential under its domestic legislation or where disclosure:
 - (a) would impede law enforcement;
 - (b) might prejudice fair competition between suppliers;
 - (c) would prejudice the legitimate commercial interests of particular persons, including the protection of intellectual property; or
 - (d) would otherwise be contrary to the public interest.

ARTICLE 8.25

Domestic Review Procedures for Supplier Challenges

1. Each Party shall provide a timely, effective, transparent and non-discriminatory administrative or judicial review procedure according to the due process principle through which a supplier may challenge:
 - (a) breaches of this Chapter; or
 - (b) where the supplier does not have a right to challenge directly a breach of this Chapter under the domestic law of a Party, a failure to comply with a Party's measures implementing this Chapter,

arising in the context of a covered procurement, in which the supplier has, or has had, an interest. The procedural rules for all challenges shall be in writing and made generally available.

2. In the event of a complaint by a supplier, arising in the context of covered procurement in which the supplier has, or has had, an interest, that there has been a breach or a failure as referred to in paragraph 1, the Party of the procuring entity shall encourage that entity and the supplier to seek resolution of the complaint through consultations.

3. Each supplier shall be allowed a sufficient period of time to prepare and submit a challenge, which in no case shall be less than ten days from the time when the basis of the challenge became known, or reasonably should have become known, to the supplier.

4. Each Party shall establish or designate at least one impartial administrative or judicial authority that is independent of its procuring entities (hereinafter referred to as the "review body") to receive and review a challenge by a supplier arising in the context of a covered procurement.

5. Where a body other than a review body referred to in paragraph 4 initially reviews a challenge, the Party shall ensure that the supplier may appeal the initial decision to a review body that is independent of the procuring entity whose procurement is the subject of the challenge.

6. Each Party shall ensure that a review body that is not a court shall either have its decisions subject to judicial review or have procedures that provide that:

- (a) the procuring entity shall respond in writing to the challenge and disclose all relevant documents to the review body;
- (b) the participants to the proceedings (hereinafter referred to as "participants") shall have the right to be heard prior to a decision of the review body being made on the challenge;
- (c) the participants shall have the right to be represented and accompanied;
- (d) the participants shall have access to all proceedings;
- (e) the participants shall have the right to request that the proceedings take place in public and that witnesses may be presented; and
- (f) the review body shall make its decisions or recommendations in a timely fashion, in writing, and shall include an explanation of the basis for each decision or recommendation.

7. Each Party shall adopt or maintain procedures that provide for:

- (a) rapid interim measures to preserve the supplier's opportunity to participate in the procurement, such as measures resulting in the suspension of the tendering process. The procedures may provide that overriding adverse consequences for the interests concerned, including the public interest, may be taken into account when deciding whether such measures should be applied. Just cause for not acting shall be provided in writing; and

- (b) where a review body has determined that there has been a breach of this Chapter or a failure as referred to in paragraph 1, corrective action or compensation for the loss or damages suffered, which may be limited to either the costs for the preparation of the tender or the costs relating to the challenge, or both.

ARTICLE 8.26

Modifications and Rectifications to Coverage

1. A Party may make rectifications of a purely formal nature to its coverage under this Chapter, or minor amendments to its Schedules in Annex XVI, provided that it notifies the other Parties in writing and no Party objects in writing within 45 days from the receipt of the notification. A Party that makes such a rectification or minor amendment need not provide compensatory adjustments to the other Parties.
2. A Party may otherwise modify its coverage under this Chapter provided that:
 - (a) it notifies the other Parties in writing and offers at the same time acceptable compensatory adjustments to maintain a level of coverage comparable to that existing prior to the modification, except where provided for in paragraph 3; and
 - (b) no Party objects in writing within 45 days from the receipt of the notification.
3. A Party need not provide compensatory adjustments where the Parties agree that the proposed modification covers a procuring entity over which a Party has effectively eliminated its control or influence. If a Party objects to the assertion that such government control or influence has been effectively eliminated, the objecting Party may request further information or consultations with a view to clarifying the nature of any government control or influence and reaching agreement on the procuring entity's continued coverage under this Chapter.

ARTICLE 8.27

Cooperation

1. The Parties recognise the importance of cooperation with a view to achieving a better understanding of their respective government procurement systems, as well as a better access to their respective markets, in particular for small business suppliers.
2. The Parties shall endeavour to cooperate in matters such as:
 - (a) development and use of electronic communications in government procurement systems; and

- (b) exchange of experiences and information, such as regulatory frameworks, best practices and statistics.

In case a Party offers in the future, a non-party, additional benefits with regard to its respective government procurement market access coverage agreed under this Chapter, it shall agree, upon request of another Party, to enter into negotiations with a view to extending coverage under this Chapter on a reciprocal basis.

CHAPTER 9

ARTICLE 9

Rules of Competition concerning Undertakings

1. The following practices of undertakings are incompatible with the proper functioning of this Agreement in so far as they may affect trade between the Parties:

3. The provisions of paragraphs 1 and 2 shall not be construed so as to create any direct obligations for undertakings.

4. The Parties involved shall cooperate and consult in their dealings with anti-competitive practices as outlined in paragraph 1, with the aim of putting an end to such practices or their adverse effects on trade. Cooperation may include the exchange of pertinent information that is available to the Parties. No Party shall be required to disclose information that is confidential under its domestic legislation.

5. If a Party considers that a given practice continues to affect trade in the sense of paragraph 1, after cooperation or consultations in accordance with paragraph 4, it may request consultations in the Joint Committee. The Parties involved shall give to the Joint Committee all the assistance required in order to examine the case. The Joint Committee shall, within 30 days from the receipt of the request, examine the information provided in order to facilitate a mutually acceptable solution of the matter.

3. For the purposes of paragraph 2, dispute settlement procedures under the WTO Agreement are deemed to be selected by a Party's request for the establishment of a panel under Article 6 of the WTO Understanding on Rules and Procedures Governing the Settlement of Disputes, whereas dispute settlement procedures under this Agreement are deemed to be selected upon a request for arbitration pursuant to paragraph 1 of Article 12.4.

ARTICLE 12.2

“To examine, in light of the relevant provisions of this Agreement, the matter referred to in the request for the establishment of an arbitration panel pursuant to Article 12.4 and to make findings of law and fact together with the reasons, as well as recommendations, if any, for the resolution of the dispute and the implementation of the ruling.”

5. Where more than one Party requests the establishment of an arbitration panel relating to the same matter or where the request involves more than one Party complained against, and whenever feasible, a single arbitration panel should be established to examine complaints relating to the same matter.

6. A Party which is not a party to the dispute shall be entitled, on delivery of a written notice to the parties to the dispute, to make written submissions to the arbitration panel, receive written submissions, including annexes, from the parties to the dispute, attend hearings and make oral statements.

6. The Parties shall treat as confidential the information submitted to the arbitration panel which has been designated as confidential by the Party submitting the information.

7. Decisions of the arbitration panel shall be taken by a majority of its members. Any member may furnish separate opinions on matters not unanimously agreed. The arbitration panel shall not disclose which members are associated with majority or minority opinions.

1. The arbitration panel should submit an initial report containing its findings and rulings to the parties to the dispute not later than 90 days from the date of establishment of the arbitration panel. A party to the dispute may submit written comments to the arbitration panel within 14 days from the receipt of the initial report. The arbitration panel should present to the parties to the dispute a final report within 30 days from the receipt of the initial report by the parties to the dispute.

2. The final report, as well as any report under Articles 12.8 and 12.9 shall be communicated to the Parties. The reports shall be made public, unless the parties to the dispute decide otherwise.

3. Any ruling of the arbitration panel under any provision of this Chapter shall be final and binding upon the parties to the dispute.

ARTICLE 12.7

Suspension or Termination of Arbitration Panel Proceedings

1. Where the parties to the dispute agree, an arbitration panel may suspend its work at any time for a period not exceeding 12 months. If the work of an arbitration panel has been suspended for more than 12 months, the arbitration panel's authority for considering the dispute shall lapse, unless the parties to the dispute agree otherwise.

2. A complaining Party may withdraw its complaint at any time before the initial report has been issued. Such withdrawal is without prejudice to its right to introduce a new complaint regarding the same issue at a later point in time.

3. The parties to the dispute may agree at any time to terminate the proceedings of the arbitration panel established under this Agreement by jointly notifying in writing the Chairperson of that arbitration panel.

4. An arbitration panel may, at any stage of the proceedings prior to release of the final report, propose that the parties to the dispute seek to settle the dispute amicably.

ARTICLE 12.8

Implementation of the Final Panel Report

1. The Party complained against shall promptly comply with the ruling in the final report. If it is impracticable to comply immediately, the parties to the dispute shall endeavour to agree on a reasonable period of time to do so. In the absence of such agreement within 45 days from the issuance of the final report, either party to the dispute may request the original arbitration panel to determine the length of the reasonable period of time, in light of the particular circumstances of the case. The ruling of the arbitration panel should be given within 30 days from the receipt of that request.
2. The Party complained against shall notify the other party to the dispute of the measure adopted in order to comply with the ruling in the final report, as well as provide a detailed description of how the measure ensures compliance sufficient to allow the other party to the dispute to assess the measure.
3. In case of disagreement as to the existence of a measure complying with the ruling in the final report or to the consistency of that measure with the ruling, such disagreement shall be decided by the same arbitration panel upon the request of either party to the dispute before compensation can be sought or suspension of benefits can be applied in accordance with Article 12.9. The ruling of the arbitration panel should be rendered within 90 days from the receipt of that request.

ARTICLE 12.9

Compensation and Suspension of Concessions or other obligations

1. If the Party complained against does not comply with a ruling of the arbitration panel referred to in Article 12.8, or notifies the complaining Party that it does not intend to comply with the ruling in the final panel report, that Party shall, if so requested by the complaining Party, enter into consultations with a view to agreeing on mutually acceptable compensation. Only if such consultations have been requested and no agreement has been reached within 20 days from the receipt of the request, the complaining Party shall be entitled to suspend the application of concessions or other obligations granted under this Agreement but only equivalent to those affected by the measure that the arbitration panel has found to be inconsistent with this Agreement.
2. In considering what concessions or other obligations to suspend, the complaining Party should first seek to suspend concessions or other obligations in the same sector or sectors as that affected by the measure that the arbitration panel has found to be inconsistent with this Agreement. If the complaining Party considers that it is not practicable or effective to suspend concessions or other obligations in the same sector or sectors, it may suspend concessions or other obligations in other sectors.
3. The complaining Party shall notify the Party complained against of the concessions or other obligations which it intends to suspend, the grounds for such suspension and when suspension will commence, no later than 30 days before the date on which the suspension is due to take effect. Within 15 days from the receipt of that

notification, the Party complained against may request the original arbitration panel to rule on whether the concessions or other obligations which the complaining Party intends to suspend are equivalent to those affected by the measure found to be inconsistent with this Agreement, and whether the proposed suspension is in accordance with paragraphs 1 and 2. The ruling of the arbitration panel should be given within 45 days from the receipt of that request. Concessions or other obligations shall not be suspended until the arbitration panel has issued its ruling.

4. Compensation and suspension of concessions or other obligations shall be temporary measures and shall only be applied by the complaining Party until the measure found to be inconsistent with this Agreement has been withdrawn or amended so as to bring it into conformity with this Agreement, or until the parties to the dispute have resolved the dispute otherwise.

5. At the request of a party to the dispute, the original arbitration panel shall rule on the conformity with the final report of any implementing measures adopted after the suspension of concessions or other obligations and, in light of such ruling, whether the suspension of concessions or other obligations should be terminated or modified. The ruling of the arbitration panel should be given within 30 days from the receipt of that request.

ARTICLE 12.10

Other Provisions

1. Whenever possible, the arbitration panel referred to in Articles 12.8 and 12.9 shall comprise the same arbitrators who issued the final report. If a member of the original arbitration panel is unavailable, the appointment of a replacement arbitrator shall be conducted in accordance with the selection procedure for the original arbitrator.

2. Any time period mentioned in this Chapter may be modified by mutual agreement of the parties to the dispute

3. When an arbitration panel considers that it cannot comply with a timeframe imposed on it under this Chapter, it shall inform the parties to the dispute in writing and provide an estimate of the additional time required. Any additional time required should not exceed 30 days.
